

# CORPORATE CHARTER

Mission, objectives and values

MARS 2020

Specialized in embedded security solutions for vehicles since 1992

## HISTORY

Windoors SA is a Swiss-French company incorporated in Geneva in 1992, originally to develop and sell automatic rolling doors for heavy trucks. From there the company developed a full range of security and automatic systems for professional vehicles, from electro-mechanical locks for vans and trucks to electronic anti-theft and fully integrated tracking solutions.

## MISSION, OBJECTIVES

We service all companies and actors involved in the manufacturing, fitting, distribution and logistical operations of all types of professional vehicles ranging from trucks, vans and lorries to tractors, ambulances, fire trucks, military vehicles, etc. Our aim is to offer pragmatic, reliable and long-lasting solutions to our customers.

## COMPETENCIES

Since 1992 our company has developed a strong expertise in the field of embedded security and tracking solutions for professional vehicles. Thanks to our integrated R&D office we often develop and manufacture tailor-made solutions for customers.

## VALUES

The core values of our company are based on those of the founding partners: personal and professional ethics, honesty, personal commitment of each employee to our company and our customers, organizational agility, innovation spirit and a genuine team spirit.

## QUALITY

Windoors SA has a reputation for quality and high level of service. Windoor is also committed to management excellency as proven by the ISO 9001 : 2015 certification. All products sold by Windoor are compliant with the EU standards. In our business relationship, we favour partnerships with customers and companies sharing our values. Generally speaking, Windoor SA is focused on the satisfaction of all interested parties.
